Excisions: No Excisions Recommended

Reasons for excisions:

Not Applicable

Summary of reasons for classification:

The DVD *Inside Deep Throat* is classified as:
Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

The DVD contains a feature that is identical to a 35mm film of the same name previously examined and classified by the Office of Film and Literature Classification. The film was classified as "Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years", with the descriptive note "Contains explicit sex scenes" (OFLC No.501134). This decision was registered on 5 July 2005.

As well as the feature, the DVD includes standard DVD components such as a scene selection facility, bonus material and audio options. The bonus material is a miscellany of interviews, commentary from the makers of the documentary and a theatrical trailer. Many of the interviews are unexpurgated versions of those in the main feature: involving legal counsel, media and social commentators, individuals associated with the making of *Deep Throat* and family members of adult performer Linda Lovelace. Like the main feature there is a strong sexual tone and use of offensive language. The additional components are of a similar nature to the feature and therefore do not require any change to the original classification.
